

Shield

#110

Protective Dressing

A non-petroleum based protective coating and dressing for use on leather, vinyl, plastic, rubber, formica, and acrylics.

Gives new life to many items by penetrating and restoring suppleness to flexible materials. Polishes and leaves a tough weather resistant film. May be used both indoors and out. Provides a tough shield to guard against sunlight and ultraviolet rays that rot, crack, and ruin these materials.

Also may be used on rubber items, such as bumpers, bumper guards, moldings, tires, and hoses; or plastic and fiberglass items.

Applications

- Fiberglass
- Acrylics
- Leather
- Formica
- Plastic
- Rubber
- Vinyl
- Glass

Areas of Use

Offices, Showrooms, Hotels/Motels, etc.

Physical Properties

Form.....	Liquid
