### Ammoniated Stripper

---

A concentrated ammoniated stripper for the removal of wax and polymer coatings from resilient flooring.

Removes wax, polymers and metal cross-linked finishes from resilient flooring such as vinyl and vinyl asbestos tile, quarry tile, terrazzo and marble.

Chemically unlocks the polymer from the floor surfaces. Lifts and floats the old wax and finish away from the floor allowing it to be wet vacuumed in one pass completely. Makes a hard job easy.
