

All-Strip Paint Stripper

A concentrated jelled paint stripper.

Caustic, alkali, and acid free. Jelled to give clinging power to vertical surfaces. Forms a paper thin shield to slow the evaporation. Locks in solvents allowing them to penetrate and break crosslinking bonds from the substrate. Residue may either be picked manually or rinsed with hot water.

A solvent based coating remover for use in removing all types of coating from various substrates. Will remove gym finishes, concrete seals, curing compounds, urethanes, air dried and baked finishes; from wood, cement, quarry tile, brick, terrazzo, metal (including aluminum), and glass without harm. Used by cities, schools, factories, recoaters, and other refinishing specialists.

Areas of Use

- Cities
- Schools
- Factories
- Recoaters
- Refinishing Specialists, etc.

Applications

- Wood
- Cement
- Quarry Tile
- Brick
- Terrazzo
- Metal
- Aluminum
- Glass, etc.

Physical Properties

Form.....	Jelled Liquid
Odor.....	Solvent
Color.....	Light Yellow
Clarity.....	Opaque
Sediment.....	None
Stability.....	1 Year Min.
Cold Stability.....	Keep From Freezing
Boiling Point.....	102F
pH.....	N/A
Specific Gravity.....	1.25
Pounds/Gallon.....	10.5
Foaming.....	Low
Caustic.....	None
Acids.....	None
Flash Point.....	None

Packaging & Freight

55 Gallons.....	610#
35 Gallons.....	390#
20 Gallons.....	220#
6 Gallons.....	65#
5 Gallons.....	55#
4/1 Gallons.....	44#
