

Snow Plow Release

#519

Physical Description

A protective coating resulting in a thin siliconized finish outlasting ordinary release agents. It is capable of reducing friction and piling of elements such as snow, dirt, sand, slush, cement, or asphalt. Includes a rust inhibitor which gives excellent equipment protection.

No need for dilution. Simply apply onto clean blades, trucks, or buckets using a clean cloth or pressure sprayer. Number of applications may vary with size of equipment and frequency of usage. For quick and easy clean up of equipment, apply daily after each use.

Applications

- Snow
- Asphalt
- Dirt
- Sand
- Cement
- Slush

Areas of Use

- Blades
- Trucks
- Buckets
- Cement Chute

Physical Properties

Form.....	Liquid
Odor.....	Mild
Color.....	None
Clarity.....	Clear
Sediment.....	None
Stability.....	1 Year Min.
Cold Stability.....	Stable
Boiling Point.....	307F
Solids.....	8.0
pH.....	N/A
Specific Gravity.....	0.79
Pounds/Gallon.....	6.5
Foaming.....	None
Phosphates.....	None
Flash Point.....	120F

Packaging & Freight

55 Gallons.....	496#
35 Gallons.....	246#
20 Gallons.....	144#
5 Gallons.....	35#
4/1 Gallons.....	30#
