

# Technical Bulletin

## Scale & Lime

# #LB520

### Product Description

---

A specialized formula for dissolving corrosion, lime and scale deposits from all types of water treatment equipment.

Fast action descaling. Can be used internally or externally. Reduce operating cost of system.

### Physical Properties

---

Color.....Brown  
Solubility.....Complete  
pH.....less than 1.0  
Specific Gravity.....1.1  
Flammability.....non-flammable

### Applications

---

Corrosion, lime and scale deposits

### Packaging & Freight

---

55 gallon to 1 quart

### Areas of Use

---

Hot water and steam boilers, water-cooling towers, evaporate coolers, and chilled water units.
